.35 Caliber Big Bore Rifle

ITEM No. 611120154

If it's got the Winchester name on it, it better deliver accuracy and dependability in a tough, handsome package. The Winchester Air Rifles big bore Model 70 lives up to this legendary name. The Model 70-35 is a .35 caliber with a six-shot magazine operated with a smooth slide lever action that requires little effort to operate. The traditional wood stock with grip and forearm checkering answers the call for traditional styling. The Model 70-35 delivers exceptional consistency across two magazines, generating up to 132 foot pounds of energy with 81.02 grain pellets or various cast ammo options. This big bore air rifle is the perfect fit for hunting medium-sized game such as deer and hogs, as well as varmints and predators out to 100 yards. Plus, it's a lot of fun to shoot at the range.

- Ships with two 6-shot magazines
- Produces up to 820 FPS with 81.02 grain pellets
- Produces 12 shots with 55 +/- FPS extreme spread

.45 Caliber Big Bore Rifle

ITEM No. 611120254

If it's got the Winchester name on it, it better deliver accuracy and dependability in a tough, handsome package. The Winchester Air Rifles big bore Model 70 lives up to this legendary name. The traditional wood stock with grip and forearm checkering answers the call for traditional styling. For hunters that want to take larger game, we created the Winchester Model 70-45, which keeps all the same styling as the 70-35 and includes a 5-shot magazine, but pushes up to 200 foot pounds shooting 138 grain .457 cast pellets as well as other cast ammunition. The Model 70-45 can produce hole-in-hole groups at 50 yards making it exceptionally capable of taking large game in the field. Whether shooting simple round ball or custom cast ammo, the Winchester 70-45 is a force to be reckoned with.

- Ships with one 5-shot magazine
- Produces 700+ FPS with 140-grain projectiles
- Produces 5 shots with 55 +/- FPS extreme spread
- Produces 150 to 180 Foot Pounds / 203.4 to 244.0 Joules depending on projectile (140 to 200 grain)
- Capable of producing 1" (25.4mm) or better center-to-center groups at 50 meters
- Capable of producing 4" to 6" (101.6 to 154.2mm) or better center-to-center groups at 100 meters
- **700+ fps** with 140 grain projectiles
